Lisa Arciuolo
Lasik Coordinator
Diamond Vision
41 West Putnam Avenue
Greenwich, CT 06830

Dear Lisa,

I just wanted to take the time to thank Diamond Vision for my "HD" view of the world, and I mean that literally. I see better than I ever had when wearing my contacts or glasses.

Many years ago when I first heard of Lasik surgery I was very interested, but a little uneasy about the thought of having it done. A friend of mine recently had the procedure and couldn't stop talking about how happy he was and that he had gone to Diamond Vision. After 30 plus years of wearing contacts/glasses, I finally decided it was time. I did some research and investigating on the web and found the Diamond Vision site. It had explained in detail the procedures, the recuperation time and the cost which was well within my budget, so I made my consultation appointment.

Upon my first visit to Diamond Vision, I knew this was where I would want it done. The staff was informative, polite and put me at ease the moment I walked through the door. I was told that I was not a candidate for Lasik and would need PRK. Once again, everything about this procedure was explained in detail to me and I felt very at ease and confident. And the rest is history.....

My procedure lasted about ten minutes and I was able to see the difference right away. I had a few days of blurred vision, which I had expected, and I was finding my site getting better everyday. I just had my one month follow-up and I am seeing 20/20 and I am amazed everytime I wake in the morning and see the clock clearly!!!

Once again, thank you to Diamond Vision and your wonderful doctors and staff. I am enjoying my "new" eyes everyday and I'm looking forward experiencing everything that I couldn't with my contacts.

Sincerely,

Kathryn Cavicchi
