

Dear Diamond Vision,

I had worn glasses for several years without much trouble until I became a mounted Park Ranger in NYC. On patrol in beautiful Van Courtland Park riding my horse Blackjack my glasses would constantly fall off my face. I would have to get off the horse several times a day to pick up glasses. I decided to have lasik surgery in 2001. I was amazed that my vision was better the next day. I have recommended lasik to many friends and co-workers.

Sincerely,
Marlena
