

Diamond Vision
41 West Putnam Avenue
Greenwich, Ct 06830

Dear Christin:

The people I spoke with and personally met at Diamond Vision were all terrific. My procedure was performed in the Glastonbury office where the staff is friendly, well trained, and works well together.

I was not your typical candidate for Lasik surgery. My eyes were extremely dry due to daily computer work. Over a four month period, Dr.Jola recommended various OTC and prescription alternatives until we found the right combination. Three weeks before my 60th birthday I could once again drive and read without glasses.

Please extend my thanks to Dr. Stetson, and everyone at Diamond Vision in Glastonbury.

Sincerely,
Sandra
